

HELPING BRISTOL'S HOMELESS

Dodd Group, working with Galliford Try Construction, has been helping out with a fantastic project in Bristol called Help Bristol's Homeless. The scheme converts old site containers into warm, comfortable accommodation to help people have a secure base from which they can start to rebuild their lives. Having a fixed address is a fundamental requirement when seeking full time employment. We would like to thank everybody that has helped out with this innovative upcycling scheme which is so invaluable to the people that it helps, particularly our local supply chain BSS/PTS and Edmundson Electrical.
