

PROJECT NAME:
NGEC

CLIENT:
MOD

LOCATION:
Eastern Region

M&E ORDER VALUE:
£9 million per annum

Dodd Group has a long history of providing maintenance, billable works and projects to Defence Establishments across the United Kingdom.

In January 2015, Dodd Group were awarded a framework contract known as NGEC for the delivery of planned maintenance, reactive maintenance, billable works and project works at Defence Establishments in the Eastern geographical area of the United Kingdom. The initial period of the contract was five years. This was subsequently extended on two further occasions to make a final contract duration of seven years.

The scope of works included full electrical, mechanical, plumbing and building works that included specialist tasks such as aviation ground lighting, hazardous area electrical, local exhaust ventilation, gas services, lightning protection systems, building management systems
