Steepleton is an imaginatively planned development made up of 2 Phases. Phase 1 being 68 apartments and phase 2 having 45 apartments in Tetbury, one of the most attractive towns in the Cotswolds. A total of six separate buildings cluster together over this five-acre site, along with extensive gardens throughout.

A contemporary response to the traditional Cotswold farmstead. The apartments are designed with great attention to detail, with the development featuring a wellbeing suite, a fitness studio, a cosy snug and café along with a guest suite for visitors.
