Somerleyton Road Project is a major mixed-use regeneration scheme, and combines building a purpose built theatre, cultural, creative and community facilities with over 300 homes.

Dodd Group was contracted to provide high performing and high specification systems for the mechanical and electrical services.

Within Block B there are two theatres and dance studios, including performance spaces, within Block A there are modern office spaces making the most of original character building.

The project is the Winner for the New London Awards Housing (2016), shortlisted for the Housing Design Awards (2016) & Finalist in the New London Awards Masterplan (2015).

This Project is expected to Complete: December 2021.
