

# KENSAL GREEN 400 KV SUB-STATION

---

**PROJECT NAME:**

Kensal Green 400 kV Sub-Station

---

**LOCATION:**

London

---

**CONTRACTOR:**

Morgan Sindall

---

This is a new National Grid Substation consisting of new GIS Hall and Welfare buildings.

This is a flagship site for National Grid as part of the London Power Tunnels project. This project included LED internal lighting as part of the growing need for energy efficiency
